

Supplementary material

Figure A2 - Maximum likelihood phylogram for the cytochrome b gene (Cyt b), with support values (bootstrap) listed in front of respective nodes.

Figure A3 - Maximum likelihood phylogram for the NADH dehydrogenase 2 gene (ND2), with support values (bootstrap) listed in front of respective nodes.

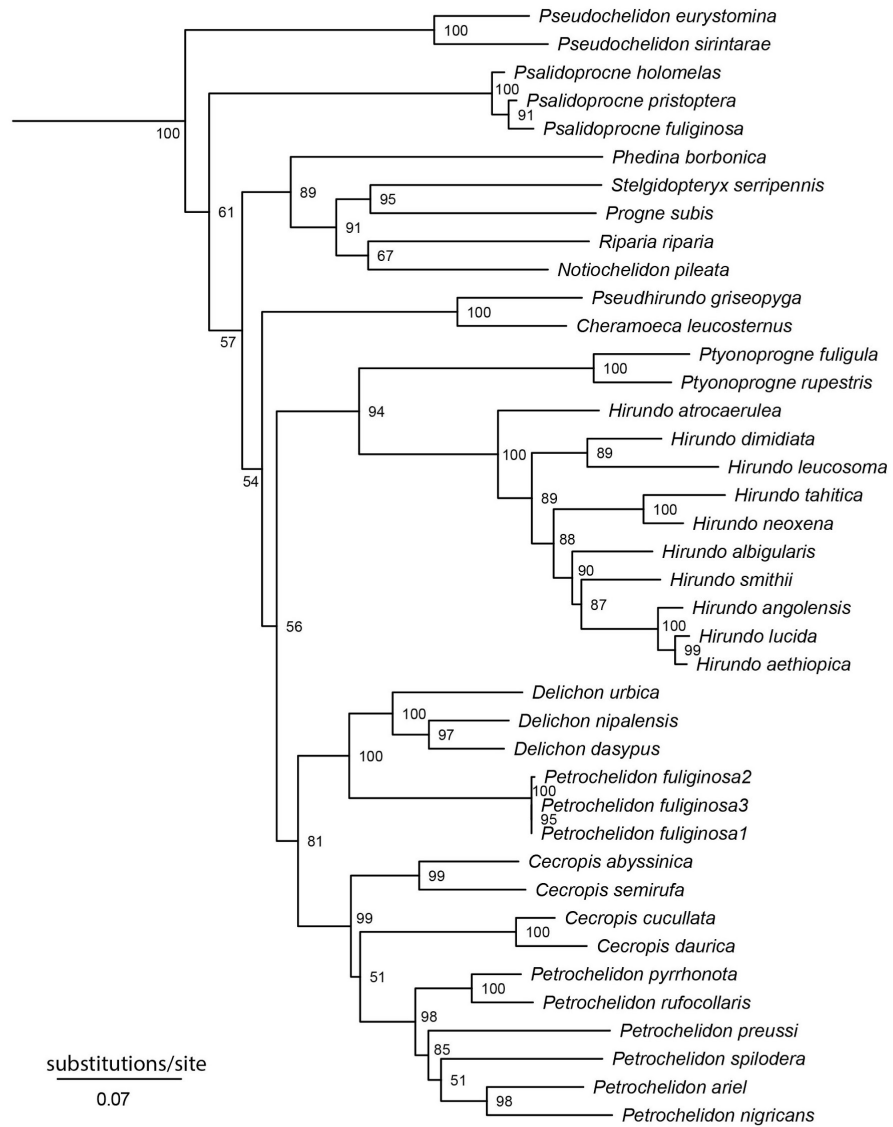

Figure A4 - Maximum likelihood phylogram for the beta-Fibrinogen intron 7 (Fib7), with support values (bootstrap) listed in front of respective nodes.
